

WWS

RASCHIATORE CON STEP TIPO WWS

Descrizione

A differenza di altri profili, il raschiatore tipo WWS è agganciato alla sede tramite un gradino sul lato statico. Questa struttura facilita il montaggio in automatico del particolare e semplifica l'esecuzione meccanica della sede.

I notches della base interna fungono da stabilizzatori e assicurano uno sfiato alla pressione che potrebbe crearsi per via di perdite tra guarnizione e raschiatore con conseguente espulsione di quest'ultimo dalla sede.

Dati tecnici

Velocità: < 0,8 m/s

Temperatura: da - 35° C a + 100 ° C con punte fino a 110° C.

Fluidi: agenti atmosferici, acqua a temperatura inferiore a 60° C, oli a base minerale
(v. tabella 3 a p. 14)

Materiale

Il materiale utilizzato è un poliuretano molto flessibile (anche a basse temperature) con un'alta resistenza all'abrasione.

Materiale standard poliuretano 90 Shore A (B0) fino al diametro 35mm.

Per diametri maggiori il poliuretano 93 Shore A (C0).

Codice materiale per diam ≤ 35mm: B0

Codice materiale per diam > 36mm: C0

Montaggio

La sede semiaperta facilita il montaggio.

Eliminare bave e spigoli taglienti nella sede.

Per ulteriori informazioni leggere le istruzioni a p. 61.

WWS TYPE WIPER WITH STEP

Description

The WWS scraper, unlike other profiles, has a step in the static side which hooks it to the housing.

This helps automated assembling and makes the mechanical construction of the groove extremely easy.

It presents notches in the wiper inner base having stabilisation effect, ensuring good ventilation.

This avoids extrusion problems.

Technical data

Speed: < 0.8 m/s

Temperature: from - 35° C to + 100 ° C with peaks till 110° C.

Fluids: atmospheric factors, water at a temperature below 60° C, mineral oils
(see table 3, page 14)

Material

The material used is a very flexible polyurethane, even at low temperatures, with a high abrasion resistance.

Standard polyurethane 90 Shore A up to diameter 35 mm (B0).

For bigger dimensions standard polyurethane 93 Shore A (C0).

Compound reference diam ≤ 35mm: B0

Compound reference diam > 36mm: C0

Assembling

The assembling is much easier since it can be done in semi-open groove.

Remove flashes an/or cutting edges in the housing.

For further information please refer to the installation instructions on page 61.
